## EXPERIENCE

- C++
- Python
- Data Structures and Algorithms
- A little bit about AI learning

## PROJECTS

### Project 1

#### Face attendance-check

- I'm working in a team creating a system to give evidence for our attendance check at school with our knowledge in computer vision, training models and making a system to save the user's data.

### Project 2

#### Identity card text extractor

- I trained a YOLO model combining with PaddleOCR to take out texts on an identity card to make it easier to collect customer's data.

## MY LIFE PHILOSOPHY

*"Keep your face always toward the sunshine—and shadows will fall behind you."*

## MOST PROUD OF

Got into PTNK

## STRENGTHS

Hard-working

Eye for detail

Versatile

Communicative

## PROGRAMMING LANGUAGES

C++

Embedded Systems

Statistical Analysis

## EDUCATION

VNU-HCM High School for the Gifted

📅 2024-2027

Thesis title: Wonderful Research
